Cover Letter for Full Time position at Ernst & Young.

POSITION: Analyst - Assurance - CHS - Audit Services

Dear Hiring Manager,

I am thrilled with the opportunity to apply for an Analyst position with EY. With my diverse educational and internship background, I am certain that my skills and passion for work will make me a valuable long-term asset that generates high returns.

The opportunity to work at EY immediately appealed to me due to the company's exceptional reputation as a global organisation and its dominant position in the industry. After researching EY, I have been especially impressed with the firm's emphasis on diversity and values.

I am a young, motivated individual who is keen to bring fresh ideas to the firm and add value to a new generation of EY employees. Not only have I shown consistently high performance academically, you will see from my Resume, I have also displayed high levels of communication, interpersonal, and leadership skills in a variety of vocational roles.

In addition to the analytical mindset and scrupulous focus to detail, I enjoy approaching any problem with creativity and out-of-the-box thinking. Developing new models and improving the existing status quo have always been my dominant skill. In my position as a Summer Financial Analyst at Kotak Mahindra Bank, I have gained experience in financial valuation, fundamental analysis of companies, creating pitch-decks among other things.

Throughout my time at school and university I have supplemented my studies with extra-curricular activities and responsibilities. Consequently, I am confident that I possess the ability, passion and ambition necessary to become a valuable investment for EY throughout the duration of my industrial placement.

I constantly strive to acquire new professional skills and gain new experience, that's why I'm currently pursuing the CFA certification while studying full-time. If no openings are available in the Mumbai location, I am open to relocation and work-related travel.

In closing, I am very excited at the opportunity to meet with you and discuss the value that I can bring to EY. I appreciate your consideration and look forward to hearing from you.

Warm Regards,
Suditi Agarwal.
